

Dear Nancy Li,

I am Cheng, an exchange student to America this winter. I'd like to give my sincerely grateful to you and the project you organized this time was impressed with me.

I also would like to thanks my host family. They are a friendly family and gave me a warm welcome when I was in America. My America parents are kindly persons; they gave me a lot of helps during my trip. Thank you very much.

My buddy, Bryce is an awesome guy. He always does everything very well. He told me plenty of interesting things about America and brought so much happy all the time. Thanks for being a great friend, especially your amazing songs and dances.

I learned lots of things from the week in Texas. La Porte is an attractive city and La Porte high school is a special school. The mode of education here is quite different from China. NASA, basketball game and the life in meadow, they told me what America is.

Finally I would like to say thanks to everybody. Thanks all my friends. It's a little hard to me to remember your entire names but Bryce, Marshall, David, Jessica, Jeremy and all guys; I will remember your faces forever and this trip as my indelible memory forever. I can not wait to see you again on this June.

Best wishes !

Cheng
